Dear Bill:

Once again it was a pleasure working with you on the above named project. As you know this was the largest project Longo's has awarded RFB Construction thus far. The competitive pricing you provided attributed to us being awarded the project. Needless to say I wanted this project to go without a hitch. Your professionalism and following through with your commitment assisted in bringing this project in on schedule.

Rosetown's on site foreman worked extremely well with our supervisor. His commitment and excellent workmanship is a testament to your company.

Once again Bill thanks for a job well done.

Sincerely,
